Dear Sir or Ma'am,

I am applying for the Internship Position at your company, as I've seen on LinkedIn. I am an incoming 4th Year Software Engineering student at iACADEMY with a solid foundation for fundamentals in Java, HTML, CSS, SQL, Firebase and other tools and languages stated in my resume.

While I am still gaining professional experience, I take pride in being adaptable, eager to learn, and committed to completing any task given to me with quality and reliability. My academic work has strengthened my problem-solving skills, and I am looking forward to applying them in a real-world setting while learning from experienced professionals.

I am excited about the opportunity to contribute to Henkel Philippine's projects and culture, and I believe this internship will help me grow while adding value to your team.

Thank you for considering my application. I look forward to the possibility of contributing to your team's success.

Sincerely,

Ann Kelly L. Cutero
